(i) The trees that Mr Wonka mentioned are the Douglas fir, the oak, and the cedar. He said that a tree called Bristlecone pine lives the longest.

Question 2:

How many of the oldest living things can you remember from Mr Wonka's list? (Don't look back at the story!) Do you think all these things really exist, or are some of them purely imaginary?

Answer:

With the exception of the 4000-year-old Bristlecone pine, the things mentioned in Mr Wonka's list (e.g., the toe-nail clipping from a 168-year-old Russian farmer, the tail of a 51-year-old horse) are purely imaginary.

Question 3:

Why does Mr Wonka collect items from the oldest things? Do you think this is the right way to begin his invention?

Answer:

Mr Wonka collected items from the oldest things because he wanted to invent a something that would make people older. It was probably the right way to begin his invention as he wanted to make people older and therefore, the use of old things seems appropriate.

Question 4:

What happens to the volunteer who swallows four drops of the new invention? What is the name of the invention?

Answer:

The moment the twenty-year-old volunteer swallowed four drops of the new invention, he began wrinkling and shriveling up all over. His hair started dropping off and his teeth

started falling out. Before Mr Wonka knew it, the volunteer had suddenly become an old man of seventy-five. The name of the invention was Vita-Wonk.
